Available Scholarships - Donation scholarships

The Grants Committee of the Philosophical Faculties hereby announce the availability of need-based and award scholarships, and scholarships from Adlerbertska Stipendiestiftelsen and Adlerbertska Studentbostadsstiftelsen for students during the academic year, 2011/12, see the reverse side of this document.

Two categories of students are eligible for these scholarships:

1. Students, who, at the end of the application period, have completed at least two semesters at a university or college in Sweden and 60 credits at a department belonging to the Faculties of Philosophy at the University of Gothenburg.
2. Students who, at the end of the application period are registered as doctoral candidates at the University of Gothenburg in a subject taught at the Faculty of Philosophy.

In both categories, students are eligible to receive a scholarship if they have shown due ability and application and honorable comportsment and are still active students at a department which was part of the Faculties of Philosophy, that is the Faculty of the Humanities, Social Sciences or the Maths and Sciences at the University of Gothenburg prior to 1977-07-01.

Undergraduate students may apply both for a needs-based and a award scholarship. Doctoral students may only apply for a needs-based scholarship and in that case to fund travel. Needs-based scholarships for research students are awarded for travel to participate in international conferences, doctoral courses, travel to summer schools or equivalent, or shorter field studies, e.g. to collect materials. The journey must not have commenced before the close of the period of application.

Note! At the meeting of the Donation Board on 30-03-2011 it was decided that doctoral students should also be able to seek needs-based scholarship for study during the academic year 2011/12. The income limit for receiving a needs-based scholarships for study is calculated at SEK **245,000**. In this year's application round, a doctoral student can therefore seek and receive two different scholarships, one for travel and one for study. Doctoral students wishing to be considered for a needs-based scholarship for study should enter "STUDIES" in the section of the application requesting other information.

The cumulative amount for a needs-based scholarship that a student can receive during their time as students at the University of Gothenburg may not exceed 30 000 SEK during their basic/advanced level and may not exceed 60 000 SEK during their time as doctoral students.

You can fill out a form and apply for Donation scholarships, through the university web server's electronic link: <https://stipendium.sahlgrenska.gu.se> **Deadline: 30 June 2011**

By order of The Grants Committee of the Philosophical Faculties
