

SAHLGRENKA AKADEMIN INSTITUTIONEN FÖR BIOMEDICIN

Utlysning

Project Title: Summer research in experimental childhood cancer

Project duration and dates: 13 weeks, 240603-240830

Application deadline: 2024-05-12

Amount: 32 500 SEK

Project summary

The Department of Biomedicine at Sahlgrenska Academy hereby announces a summer research fellowship funded by the Swedish Childhood Cancer Fund. The purpose of the scholarship is to increase interest in cancer research among students in the molecular biology program. The training includes human cell culture, pharmacological treatment of human leukemia cells with small molecule drugs, and functional studies of cancer genes.

Applicant

Applicants must meet the following criteria:

- Be admitted to the molecular biology program at the University of Gothenburg.

Meritorious for receiving the scholarship is previous experience with drug testing on cultured human leukemia cells.

Application

Applications should be emailed to: mattias.andersson@llcr.med.gu.se

The application should include: Motivation letter and CV including contact info.
