

## Olena Kozak

Olena Kozak holds a PhD in Ecology and serves as a Senior Lecturer at the Environmental Studies Department of the National University of Kyiv-Mohyla Academy (Ukraine).

With over a decade of experience, Olena specializes in academic research, environmental and sustainability consultancy, analytics, and higher education and non-formal education for sustainable development.

Her research interests span vegetation ecology, biodiversity assessment, the impacts of climate change and war on biodiversity, invasive species expansion, citizen science, education for sustainable development, and interactive learning.

Currently, Olena Kozak teaches a range of courses including Ecology of Terrestrial Systems, Population Ecology, Principles of Ecology, Nature-Based Solutions for Sustainable Development, Biogeography, Chernobyl Studies, and Field Practice.

Olena's expertise includes biodiversity assessments, policy development, training for local government representatives and NGOs, curriculum development for formal and non-formal education, eco-game development, and production of research papers, popular science materials, brochures, and manuals. She has been involved in projects supported by the Government of Ukraine, U.S. Forest Service, UNDP, GEF, U.S. Embassy in Ukraine, Alfred P. Sloan Foundation, among others. Olena is the author and co-author of over 30 scientific and educational publications.
