

# ASDASQ

Nylander and Gillberg 2001

<b>NAME OF CHILD/ADOLESCENT</b>	<b>Sex:</b>
<b>Date of birth</b>	<b>Age:</b>
<b>Name of informant:</b>	
<b>Rater:</b>	<b>Date:</b>

	YES	NO	Don't know
<b>1.</b> Does the patient have any problems regarding contacts with others? (e.g. cannot get or keep friends of the same age, or cannot get reciprocally satisfying contacts with sex partners).	1	2	
<b>2.</b> Is the patient odd, eccentric, "one of a kind"?	1	2	
<b>3.</b> Do you find the patient compulsive or rigid, occupied by rituals, routines or rules?	1	2	
<b>4.</b> Has the patient trouble with clothing, grooming and personal care? (e.g. conspicuously old-fashioned or ill-fitting clothing).	1	2	
<b>5.</b> Has the patient or has he/she earlier had, special interests, i.e. an interest that keeps the patient from engaging in other activities, or an interest that the patient wants to talk about all the time? The subject of the special interest is not important, but the intense engagement or repetitive talking about it.	1	2	
<b>6.</b> Has the patient a bizarre language or a strange/unusual voice? Does he/she speak in a very grammatical or old-fashioned way, or use standard phrases or clichés, or talk in unnecessarily loud or low voice? Does he/she talk in a monotonous, or shrill or whining voice?	1	2	

<b>7.</b> Has the patient an unusual non-verbal communication, e.g. abnormalities in gaze, gestures or facial expression, unusual posture, stiff gait, etc.?	1	2	
<b>8.</b> Does the patient seem to have a lack of common sense, or lack the ability to understand and foresee the consequences of his/her doings or sayings? This might cause the patient to repeatedly getting into difficult or embarrassing situations, or get others into these situations.	1	2	
<b>9.</b> Is the patient uneven in his/her abilities, i.e. very skillful in some areas while lacking elementary knowledge or skills in others?	1	2	
<b>10.</b> Has the patient had any contacts with child and adolescent psychiatry?	1	2	3
