13th December

Collaborative innovation in the life sciences: challenges and opportunities

9.30-10.00 Coffee and registration

10.00-10.05

Opening Magnus Gulbrandsen

10.05-10.15

Welcome address Ole Petter Ottersen

10.15-11.00

Paper: The importance of clinical and applied science in medicine, and the role of hospitals and doctors in innovation.

Author: Michelle Gittelman

Coffee

11.15-11.45

Paper: The contribution from clinical expertise to university innovations in different fields of medical technology.

Authors: Finn Valentin, Lars Alkærsig

11.45-12.15

Paper: Synergies and tensions in research and innovation collaboration between hospitals, universities and firms.

Authors: Magnus Gulbrandsen, Taran Thune

12.15- 13.00 Lunch

13.00-13.30

Paper: The changes in the Swedish Life Science landscape in recent years – the previous role of AstraZeneca and the implications of the closing of the R&D units in Lund and Södertälje.

Author: Anna Sandström

13.30–14.30

Paper: The Emergence of Life Science Clusters: Is the secret in the ingredients or the cooking?

Author: Woody Powell

Coffee

14.45-16.00

Panel debate: Collaborative research and innovation in life science and health: promise and peril?

John-Arne Røttingen

Erlend Smeland

Ole Petter Ottersen

Egil Samset

Hilde Steineger

Kathrine Myhre (chair)

16.00

Closing address

RP special issue workshop

8.45 Coffee/tea and short welcome

9.00

Paper: Connections matter: How ego-network structure influences...

Authors: Oscar Llopis, Pablo D'Este

Commentator: Finn Valentin

9.30

Paper: Institutional Power Play in Innovation Systems

Authors: Piret Kukk et al.

Commentator: Michael Hopkins

10.00

Paper: The revolution re-visited: Clinical and genetic paradigms in bio-medical research

Author: Michelle Gittelman

Commentator: Maureen McKelvey

10.45

Paper: Hospitals as partners in the health innovation system

Author: Taran Thune

Commentator: Paul Windrum

11.45

Paper: The Emergence Genetic Testing Technologies as 'Hidden Innovation'

Author: Michael Hopkins

Commentator: Andrea Carafa

11.45 Lunch

13.00

Paper: Research network position and innovative performance

Authors: Maureen McKelvey, Bastian Rake

Commentator: Pablo D'Este

13.30

Paper: Institutional work and the development of patient-centred education

Author: Paul Windrum

Commentator: Michelle Gittelman

14.00

Paper: Boundary-spanning in academic healthcare organisations

Author: Bryn Lander

Commentator: Taran Thune

14.45

Paper: Effects on medical innovation of combining academic and clinical expertise

Authors: Finn Valentin, Lars Alkærsig

Commentator: Oscar Llopis

15.15

Paper: Partnerships in biomedicine

Authors: Taran Thune, Magnus Gulbrandsen

Commentator: Bryn Lander

15.45

Paper: Organizing the entrepreneurial hospital

Author: Fiona Miller

Commentator: Josephine Rekers

16.30

Paper: Instrumentalities Enter the Hospitals

Author: Andrea Carafa

Commentator: Lars Alkærsig

17.00

Paper: -

Author: Johan Brink

Commentator: Piret Kukk

17.30

Paper: The roles of users in innovation processes

Authors: Josephine Rekers, Markus Grillitsch

Commentator: Fiona Miller
