

Looking for a research topic and / or supervisor in your Idrott & Hälsa area of interest?

Below you find a list of areas and themes in which members of the SCOPE group <http://iki.gu.se/forskning/scope> propose 'uppsats' supervision for e.g. literature reviews or empirical project on undergraduate and advanced level.

The list below is not conclusive! Own topics that fit in one of the areas can be developed together with a supervisor just as the exact focus of your uppsats topic will be decided in dialogue with the supervisor.

Essays can be written in Swedish even if topic suggestions are in English

IoH teaching

- Content knowledge and pedagogical content knowledge in PEH (Pär Rylander, par.rylander@gu.se) level: MA or BA or MA/BA; literature review and/or empirical study
- Classroom management in physical education (par.rylander@gu.se) level: MA or BA or MA/BA; literature review and/or empirical study.
