

National NEON-meeting in Copenhagen, April 26-29, 2006

The activities took place in Copenhagen , April 26- 29, in connection with the Sixth International Conference on Dietary Assessment Methods. The conference was partly organized by NEON. Chair of the finance/sponsor committee was Anna Winkvist and chair of the scientific committee was Lauren Lissner, both members of the working group of NEON.

NEON-child had their first meeting together with representatives from the Norwegian network NNEK (Norskt Nätverk for Ernæringsepidemiologi og Kost). The themes for the jointly meeting of NEON/NNEK, with focus on children, in spring 2007 were discussed.

NEON sponsored the conference fee for 19 Swedish members (decided by drawing of lots) and lodging for 24 members (all applicants). More members than these attended the conference and many of them met for an evening together at "Strøget".
