

Tourist and Travel Information

You are going to listen to ten short pieces of information. Decide what the information is mainly about. In the pause that follows each piece of information, you can fill in the letter that matches each subject in the appropriate box. There are more subjects than pieces of information, so you can't use them all. Each subject should be used only once.

You will only hear the information ONCE so listen very carefully. There will be an example to begin with so you will see what you have to do.

- | | |
|-----------------------------|---------------------------------|
| A Amusement Park | L Golfing Holiday |
