Berg M, Goldkuhl L, Nilsson C, Wijk H, Gyllensten H, Lindahl G, Uvnäs-Moberg K, Begley C. (2019) Room4Birth - the effect of an adaptable birthing room on labour and birth outcomes for nulliparous women at term with spontaneous labour start: study protocol for a randomised controlled superiority trial in Sweden. *Trials*. Nov 19;20(1):629. doi: 10.1186/s13063-019-3765-x

MASTER THESIS

Lisa Björnson Skogström & Emma Vitahl (2021). Women's experience of physical features in a specially designed birthing room – a mixed method study in Sweden. Master Thesis RPH040 1 June 2021 (full master). Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Andrén Anna (2020). Midwives' experience of the birthing room and its influence on the promotion of a normal vaginal birth - a qualitative interview study in Sweden. / Förlossningsrummets påverkan på barnmorskans främjande av normalfysiologisk vaginal födsel - en kvalitativ intervjustudie med barnmorskor på en förlossningsklinik i Sverige. Master Thesis in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden

Ida Johansson, Linnea Maxon (2020). Like entering another world – Midwives' experience of caring for women in labor and birth in a specially designed delivery room – a phenomenological interview study. / Som att komma in i en annan värld. Barnmorskors upplevelse av att vårda kvinnor i

förlossningsarbete i ett specialdesignat förlossningsrum – en fenomenologisk intervjustudie. Master one year thesis (“magister” 15 credits) in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Johansson Caroline, Söndergaard Julia (2019). To compose and test the Room4Birth Study - A feasibility study / Utarbetning och test av room4birth studien - en genomförbarhetsstudie. Master one year thesis (“magister” 15 credits) in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Gasslander Emma, Kamber Nesrin (2018). Translation of the tool BUDSET from English to Swedish - a valuation tool of the birth environment. / Översättning av BUDSET från engelska till svenska - ett verktyg för utvärdering av förlossningsmiljön. Master one year thesis (“magister” 15 credits) in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Angervall Josephine, Wennerbäck Evelina (2018). Developing the healthcare environment to promote the health of mother and child – a description of a multidisciplinary project at Panzi hospital in The Democratic Republic of Congo / Att utveckla vårdmiljön för att främja hälsa hos mor och barn - beskrivning av ett multidisciplinärt projekt på Panzisjukhuset i Demokratiska Republiken. Master one year thesis (“magister” 15 credits) in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Höglund Lina (2017). The Significance of the birthing room for physical and mental health – A integrative literature study / Förlossningsrummets betydelse för fysisk och psykisk hälsa - En integrativ litteraturstudie. Master thesis in Reproductive and Perinatal health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Lundgren Caroline (2017). Birthing room experiences – a qualitative interview study of women who have given birth. Master Thesis May 2017. Master thesis in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden

Wibeck Axelsson Lisa (2017). Experiences of the birthing room – from the perspective of non-Swedish speaking women. / UPPLEVELSER AV FÖRLOSSNINGSRUMMET - Ur icke svensktalande kvinnors perspektiv. Master one year thesis (“magister” 15 credits) in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.

Lundgren Caroline, Löfqvist Jennie (2017). Towards the ideal delivery room, women’s experience and desires. / Vägen mot det ideala förlossningsrummet. Kvinnors upplevelser och önskningar. Master one year thesis (“magister” 15 credits) in Reproductive and Perinatal Health. Institute of Health and Care Sciences, Sahlgrenska Academy, University of Gothenburg, Sweden.
