

# CLIMATE FINANCE

**NOVEMBER 16, 2022**

**VENUE: SEB lecture hall, VASAGATAN 1, SCHOOL OF BUSINESS, ECONOMICS AND LAW**

Together with Andra AP-fonden (AP2) and Handelsbanken, Centre for Finance (CFF) at the University of Gothenburg welcomes you to a conference on "**Climate Finance**".

Climate change is typically characterized as one of the most urgent and difficult challenges of our time. The OECD general secretary Angel Gurría argued: "We need to urgently deliver on our climate and development goals, and to do so we need a systemic shift of trillions of dollars towards low-emission and resilient investment. "**Climate Finance**" is about investments that governments, corporations and households have to undertake to transition the world's economy to a low-carbon path, to reduce greenhouse gas concentrations levels, and to build resilience of countries to climate change. The conference will bring academics and practitioners together to discuss these issues.
