

## SAHLGRENKA AKADEMIN INSTITUTIONEN FÖR BIOMEDICIN

### Utlysning

**Project Title:** Studying the effect of NF1 deletion and RAS inhibition in neuroblastoma

**Project duration and dates:** 2025-08-01 – 2025-10-31

**Application deadline:** 2025-07-30

**Amount:** 60,000 SEK

**Project summary:** The project will address RAS inhibition in NF1 mutant neuroblastoma models, working in cell lines, organoids and mouse models.

**Applicant:** The applicant should be well motivated and familiar with signal transduction and neuroblastoma. A medical background is advantageous. The applicant should be fluent in English as the research group contains researchers from several countries.

**Application:**

Applications should be emailed to Ruth Palmer at [ruth.palmer@gu.se](mailto:ruth.palmer@gu.se)

The application should include: Motivation letter, CV including contact info.
