

Mixed Fortunes in New Zealand

You are going to listen to two parts of a programme about a very special discovery in New Zealand. After each part there will be a pause to give you time to answer the questions that follow each part. Answer all the questions either by writing a few words or by marking the best alternative – A, B, C or D – in the boxes. You will hear the programme TWICE, the second time without any pauses. You can make notes in the margin while listening.

For your notes

Part 1

For your notes
