Network meeting 1

March 6, 2025

Stay Updated on Person-Centred Learning: Join Our Digital Network Lunches!

We welcome teachers, students, researchers, and leaders in higher education to our network lunches. The network lunches are an initiative to develop the network that was initiated during the LearnPCC conference on 12-13th December 2024 in Sweden.

Through these digital network meetings, we aim to spread knowledge and experiences about learning of person-centredness within health science education programs. In 2025, the network lunches will be offered four times, twice in the spring and twice in the fall.

The network lunches will take place on the first week every third month. Each session will feature a guest speaker who will have 15 minutes to present their topic, followed by a 15-minute discussion.

Digital Network Lunch 1

Date: March, 6, 2025, kl. 12.15-12.45 PM

Location: Digital meeting

Presenters: Marti Balaam, Director of Professionalism within undergraduate medicine, Senior Lecturer in Medical Education and Senior Lecturer in Nursing Studies at the University of Edinburgh.
