# Doing the Right Thing?

---

We learn more and more about the consequences of our way of life. Some people choose alternative lifestyles and most people try their best to do the right thing for the environment, the planet and its people.

## Preparation

You have received a card where somebody talks about **Doing the Right Thing**. Prepare to tell your partner about your card. Also, study Part 2 so you will know what you have to do.

## Part 1 – Present and Interact

- A** In your own words, tell your partner about what it says on your card.  
Explain why you agree/disagree. Give examples from your own experience or that you have heard about.
- B** Discuss with your partner.  
What are your reactions to the information on your cards? Do you agree/disagree? Why – Why not?

## Part 2 – Interact and Discuss

Below, there are different ways of **Doing the Right Thing**. Choose at least **two each** that you want to discuss and that you did not talk about in Part 1. Use the questions to get your discussion going. You could of course add ideas of your own as well.

**Explain, give examples, compare and give reasons for your opinions**

- In what way/s might this be *Doing the Right Thing*?
- Is this important to you personally? Why – Why not?
- What would it mean globally, for the future of our planet, if many people did this?
