Announcement - scholarship at undergraduate/advanced level

The Department of Clinical Neuroscience, Institute of Neuroscience and Physiology, hereby announces a vacant scholarship at undergraduate/advanced level in **Rehabilitation medicine**.

Training Plan

Subject: Rehabilitation medicine

Background: There is a knowledge gap regarding the effects of statin use prior and after stroke.

Purpose: To learn more about stroke and the effects of statin regarding primary and secondary prevention on incidence of stroke as well as the outcomes of stroke.

The student will learn how to use different databases, how to use R and more advanced statistics such as imputation.

Method: Different national databases and quality registries will be used, combined and analyzed.

Time plan: 2026-09-01—2026-12-31

Learning outcome: To understand the different data bases and the difference between quality registries and mandatory registries operated by governmental institutions. Learn how to write an article, to use EndNote or similar reference program and manage different statistical programs.

Financing: 2 payments of 30 000 SEK. A total of 60 000 SEK for the whole period. If you require any further information, please contact Katharina Stibrant Sunnerhagen, ks.sunnerhagen@neuro.gu.se, supervisor.

Application: To apply please fill out the form “Scholarship application” and send it to Katharina Stibrant Sunnerhagen, ks.sunnerhagen@neuro.gu.se, supervisor.
