

## SAHLGRENKA AKADEMIN INSTITUTIONEN FÖR BIOMEDICIN

### Utlysning

**Project Title:** MAIT cell function in colorectal cancer

**Project duration and dates:** 4 months, September 1st, 2026 to December 31st, 2026

**Application deadline:** August 20th, 2026

**Amount:** 80 000

**Project summary:** The project entails studies of MAIT cells from colorectal cancer patients and healthy volunteers. Flow cytometry will be used to evaluate MAIT cell phenotype and function, and correlations made to tumor and patient characteristics.

**Applicant:** The eligible student should have an MSc degree in molecular biology, cell biology, or a similar subject, and have completed immunology course(s) of at least 15 hsp (10 weeks).

**Application:**

Applications should be emailed to Marianne Quiding Järbrink (Marianne.quidign@microbio.gu.se). The application should include Motivation letter and CV including contact info.
