CURRENT RESEARCH PROJECTS

Project leader: *Intersectionality and Climate Policy Making: toward a socially inclusive welfare state* FR-2018/0010 (2019-2022). The aim of the project is to increase knowledge among climate policy makers about intersectional factors so they may develop socially inclusive and just climate policies in line with Agenda 2030. An interdisciplinary research group with junior and senior scholars develop scientifically based guidelines through various methodologies exploring how policy makers in government agencies work with social inclusion, enhancing learning about and how intersectional aspects relate to climate policy-making. The project is funded by the Swedish Research Council Formas with 10 mill. SEK.

WP Leader: *New Nordic Ways to Green Growth (NOWAGG)* (2017-2019) The project will generate much needed knowledge and policy advice about green growth as a pathway to sustainable development, while taking interest in regional aspects of making green growth truly inclusive. The proposed research is significant for understanding which institutional innovations are required to achieve adequate governance structures. The project will provide analytical and conceptual frameworks supportive for decision makers in promoting future green transformations of industry and the public sector achieving results of interest to decision-makers in Nordic countries. The project is financed by Nordforsk with 13,9 million NEK and includes researchers from Sweden, Denmark, Finland, Norway and Iceland.

Researcher: *Gender Equality and Increased Energy efficiency in the Transport Sector* (2017-2019) This project starts in the assumption that gender equality is highly relevant in order to reach energy efficiency in the transport sector. There are large discrepancies in the transport sector along the lines of gender and gender difference in CO2 emissions. The project will investigate whether and how municipal transport sustainability ambitions of policies and objectives relate to gender representation and norms. It will develop methods for how research and practice can interact to advance knowledge on how gender equality can contribute to a sustainable and energy efficient transport system. The project is financed by the Swedish Energy Agency with a budget of 1,766 million SEK with the project partners: LU Technical School and Trivector Traffic AB.

INTERNATIONAL RESEARCH COLLABORATION

Worldwide University Network Research Development Fund project "[Climate-Induced Migration: Global Scope, Regional Impacts and National Policy Frameworks](#)" for 2020 Lead by: Andreas Neef, University of Auckland.

Australian Research Council Discovery Project 2020-2022, *Household innovation and the transition to the low waste city*, Project leader Ruth Lane, Monash university, Melbourne, Australia.

FINISHED RESEARCH PROJECTS

Project leader: Kerstin Hesselgren Guest Professor 2019 awarded to Robyn Eckersley, University of Melbourne for Department of Political Science, Lund university by the Swedish Research Council, 850 tsek.

Project leader: *Institutional frameworks for Integrated Mobility Services in future cities* (2016-2017) The project provided knowledge and proposes recommendations on how institutional frameworks can be modified to enable new, integrated mobility services capable of contributing to a transition towards sustainable travel in tomorrow's cities. This interdisciplinary project brought together research on institutional challenges and opportunities in the mobility domain, with the development of new technologies and services. The project utilized case studies of integrated mobility services that may come to dominate the future urban context in Sweden, and compares these with other European experiences. The project was financed by Vinnova, the Swedish Innovation Agency with 5 million SEK and included the project partners: Lund University of Technology; Chalmers University of Technology, Gothenburg; Trivector; Viktoria Swedish ICT; Samtrafiken; and K2 Swedish Knowledge Center for Public Transport.

Steering group member and researcher: (2008-2018) *Lund University Centre of Excellence for Integration of Social and Natural Dimensions of Sustainability* (www.LUCID.lu.se) Linneaus project financed by The Swedish Research Council Formas 75 million SEK. LUCID includes a research school.

Project leader: *Collaborative teaching network on environmental politics*, initiation grant from the Swedish Foundation for International Cooperation in Research and Higher Education STINT, for 2016, 135 000 SEK.

Steering board member: *Biodiversity and Ecosystem services in a Changing Climate* (BECC) is a strategic research area that strives to better understand the impacts of climate change. From the beginning I was Principal Investigator and from August 2013 until December 2017 on the steering board, active in all decisions, planning, research funding allocations within BECC. In the Research Budget Bill of 2016 the Government approved continued funding for the Strategic Research Areas. BECC includes a research school CLIMBECO where I was active between 2010 and 2013. <http://www.becc.lu.se>

Researcher: *Green transition and co-evolution of industry and the energy system (GRIST)* (2015-2017) The project makes scientific contributions on theory and method for the transition of carbon intensive industry to provide a basis for future governance and policy strategies and explore mitigation options and potential development pathways and governance/policy strategies. The project involves four departments and is financed by the Swedish Energy Agency with a total of 16, 5 million SEK. <https://gist2050.wordpress.com>

Researcher: *Governance of Urban Sustainability Transitions: Advancing the role of living labs (GUST)* (Oct 2014 - Sept 2017) A Joint Programme Initiative with the partners Durham University, UK, Erasmus University Rotterdam, Netherlands, and Joanneum Research, Austria. The Swedish Research Council Formas financing for Sweden. The coordinator was Lund University and the International Institute for Industrial Environmental Economics (IIIEE). www.livinglabs.net

Deputy director and researcher: (2009-2013) *Governing transitions towards Low-Carbon Energy and Transport Systems for 2050* (www.lets2050.se) is an interdisciplinary research program financed by the Swedish Environmental Protection Agency, the Innovation, Energy and Traffic Agencies together. The Program involved over 20 researchers in 6 themes or projects: Scenarios and Alternative Pathways for LETS 2050; Governance, Institutions and Policy; Urban and Regional Planning; Technology, Industry & Markets; Citizen-Consumers & Voluntary instruments, Goods Transport and Logistic. My role is as deputy director, leading the program together with Professor Lars J. Nilsson at Lund Technical University and as researcher on governance issues.

External Research Fellow: (October 2011-July 2012) *Mobility, Climate Change, Governance*, an interdisciplinary research group at Freiburg Institute for Advanced Studies, Albert-Ludwigs-Universität Freiburg in Germany (<http://www.frias.uni-freiburg.de/interdisziplinaere-fellowships-en/mitteilungen/mobilitat-klimawandel-und-governance>).

Researcher: (2006-2009) *GreenGovern – Participation, deliberation and sustainability: Governance beyond rhetoric in the domains of climate, forestry and food safety*, A multidisciplinary research project financed by the Swedish Research Council Formas. Total budget 6,8 million SEK.

Workpackage leader: (2006-2008) *IMPACT- IMplementation Paths for ACTion towards sustainable mobility*, A multidisciplinary project financed by MISTRA The Foundation for Strategic Environmental Research. Entire budget 21million SEK. I was the leading researcher for a workpackage on the role of multi-level governance for the implementation of sustainable mobility.

Project leader: (2004-2005) *Gender, citizenship and democracy in the voluntary defense organizations*, (Folkförankring på riktigt? Kön, medborgarskap och demokrati i de frivilliga försvarsorganisationerna) financed by the Swedish Contingency Agency. Project leader for this project covered wages for 2 researchers doing 50% (2004-2005).

Project leader: (1999-2002) *Masculinities, femininities and the changing defense and security policy of Sweden* (Maskuliniteter, feminiteter och den förändrade svenska försvars- och säkerhetspolitiken) financed by the Swedish Research Council for the Humanities and Social Science Project leader for this project with 2 researchers with 75% for 3 years.

Ph. D. research project: (1993-1996) *Processes of International Cooperation*, financed by the Bank of Sweden Tercentenary Foundation with project leader Professor Christer Jönsson. Project covered the costs of two Ph.D. students for 3 years and the senior research.
