

Curriculum Vitae

Dr JULIE GRANTHAM

Department of Chemistry and Molecular Biology,
The University of Gothenburg,
Lundberg Laboratory,
Medicinaregatan 9C,
Box 462, S-405 30,
Göteborg.
(tel: 031 786 2846)

Senior Lecturer in Mammalian Cell Biology from 1st January 2012

Vinnmer Fellowship (Vinnova)

Awarded for 2010, 2011, 2012

Swedish Research Council funded Forskarassistent (Sept 2004 – Jan 2010)

Department of cell and Molecular Biology, The University of Gothenburg

Project Title: Analysis of the activity and regulation of the eukaryotic chaperonin CCT in mammalian cells.

Post-Doctoral Research (August 1998-July 2004), Institute of Cancer Research, London, UK

In the laboratory of Professor Keith Willison.

This project focussed on the CCT chaperonin complex and included collaborative work in the laboratory of Professor Jose Valpuesta (CSIC, Madrid)

Recipient of Royal Society Study Visit Grant (2002).

PhD in Biochemistry (1994-1998), Department of Biosciences, University of Kent, UK

Thesis title. Studies on the Chaperonin Containing TCP-1

PhD supervisor, Dr Martin Carden

Supervision of PhD students

Currently main supervisor of Josefine Vallin

Main supervisor of Andreas Svanström defended April 2016

Co-supervisor of Lisa Larsson defended May 2016

Main supervisor of Karen Brackley, defended April 2010
