CURRICULUM VITAE / PAULINA BLAESILD

Personnummer: 1994-05-03

Adress: Spångatan 32 D, 211 53 Malmö

Telefonnummer: +46 763 00 77 80

Email: paulinablaesild@hotmail.com

University degree

BA degree, Prehistoric Archaeology at the Department of Archaeology and Ancient History, Lund University.

MA degree, Prehistoric Archaeology at the Department of Archaeology and Ancient History, Lund University.

Current position

Enrolled in Ph.D. student program in Archaeology at the Department of Historical studies, University of Gothenburg (autumn 2021 – spring 2025).

Archaeological work and professional experience, 2016 – 2021

- Field archaeologist, Stiftelsen Kulturmiljövård, 28/6 – 09/07 2021. Excavation at Dagsmosse and the middle Mesolithic site Jussberg.

- Field archaeologist, Sydsvensk Arkeologi AB, 30/04 2021 – 25/06 2021. Contract archaeological campaign covering sites from the bronze age to medieval times.

- Field archaeologist, Stiftelsen Kulturmiljövård, 24/8 – 25/9 2020. Excavation at Dagsmosse and the middle Mesolithic site Jussberg.

- Field archaeologist and sampling responsible, Sydsvensk Arkeologi AB, 25/5 – 14/8 2020. Mesolithic site in Ljungaviken, Blekinge.

- Field archaeologist and GIS-responsible, Copenhagen Museum, 5/8 2019 – 22/5 2020.

- Field archaeologist, Stiftelsen Kulturmiljövård 10/9 – 20/9 2019. Site Jussberg at Dagsmosse, Östergötland in Sweden.

- Field archaeologist, Skellefteå museum 13/8 – 15/10 2018. Excavations at different sites and post-processing together with report writing.

- Field archaeologist, Bergen University 9/4 – 8/7 2018. Early Mesolithic to Neolithic sites in connection with the construction of Sotrasambandet.

- Field archaeologist and field leader, BAAC Vlaanderen 3/7 – 25/8 2017. Mesolithic site outside of Verrebroek and Antwerp, Belgium.

- Field archaeologist, BAAC Vlaanderen 18/7 – 31/8 2016.

Academic merits, 2017 – 2021.

- Participation in research project relating to megalithic graves and landscapes in southwestern Scania, Sweden, spring 2017. The project was a collaboration between students and Ph.D. researcher Björn Nilsson, Lund University, exploring the potentials of 3D mapping surrounding megalithic landscapes and presentation of the results to the public.
- Participation in research excavation in Dalby Söderskog, determining age and chronology of a defence construction in autumn 2017. Chapter writing about 3D documentation and digital archaeology in publication about the national part.

- 3D documentation work at seminar excavation in Åmosen, western Sealand in Denmark, autumn 2017 with responsibility over production of maps and landscape topography analysis in ArcGIS.

- Participation in Ph.D summer course organized by Tartu University in Estonia, summer 2017, regarding Mesolithic activity and dwelling in relation to geological formations such as late to post-glacial fluvial deposits.

- Participation in conferences and workshops: LINXS autumn 2018 om geological and archaeological collaboration initiation and synchrotron/neutron-based techniques; Alvastra pile dwelling and wetland symposium arranged by State historical museum spring 2020; the Mesolithic conference MESO 2020 during summer, 2020; conference on artistic research in spring 2021; conference on environmental humanities in the Baltic area, summer 2021; EAA 2021 in Kiel, autumn 2021.

- Written article for the Sweden-based journal OEI for their theme issue on wetlands during spring 2019.

- Ph.D. application during spring 2020 and spring 2021.

Relevant duties

- Editor for the Sweden-based literature and culture journal Ordkonst since spring 2019, which publishes 4 issues per year on different topics.

- Former head and participant in the student organization KNUT for archaeology students at the department for Archaeology and Ancient History, Lund University.

Publication list

Blaesild, P. (2019). Accumulation Tendencies / Terrabyte. Grönberg, C. & Magnusson, J.(J) (eds.). OEI #84–85. Våtmarker & experiment. OEI editör, Stockholm.

Blaesild, P. (2021). Eustasia. Westergaard, A. et. al. (eds.). KULTURO #51: Grund. Eks-Skolens Trykkeri, Copenhagen.

Archaeological reports

Blaesild, P. & Östlund, O. (2018). *Arkeologisk utredning steg 2, av åtta områden i anslutning till Norrbotniabanans sträckning genom Skellefteå kommun, Lövånger sn, Bureå sn och Skellefteå sn, Skellefteå kommun, Västerbottens län.* Skellefteå Museum 2018.12.07, Skellefteå.
